Profile

Front-end and Android developer with hands-on experience building responsive web applications and Android solutions using HTML, CSS, JavaScript, React, Kotlin, Jetpack Compose, and Firebase Realtime Database. Skilled in UI development, cloud data integration, end-to-end deployment, tenant and rent-management workflows, and problem solving, with a focus on reliable and user-friendly digital products.

Experience

Moolstone **02/2026 – Present**

Founder & Web Developer

- Founded and launched Moolstone, providing e-commerce seller services and web development solutions for businesses.
- Designed, developed, hosted, and deployed the official company website end-to-end, including responsive UI, domain setup, and production deployment.
- Provide seller support for Amazon, Flipkart, and Meesho, including onboarding, product listing and catalog management, SEO keyword optimization, PPC/ads support, account health, A+ content, and operations.

Mphasis **2021/10 – 2022/02**

Associate Software Engineer *Bangalore, Inida*

- Acquired proficiency in essential Tech stack tools including HTML, CSS, and JavaScript while developing a front-end website called Grow as part of a comprehensive training project.
- Demonstrated the ability to apply these technologies effectively to create a aesthetically pleasing and functional website.

Projects

Naseeb Lal Market Rent Manager

Android Rent Management Application

Tech Stack: Kotlin | Jetpack Compose | Firebase Realtime Database

- Developed an Android rent-management application for commercial shops and residential flats, supporting tenant records, monthly rent collection, previous dues, agreed rent, and joining-date management.
- Implemented separate shop and flat workflows with structured tenant and occupancy tracking for day-to-day rental operations.
- Built electricity-charge calculation using previous and current meter readings with configurable per-unit cost, enabling charges to be added to monthly rent.
- Integrated Firebase Realtime Database as a cloud NoSQL backend for centralized storage and synchronization of tenant, rent, dues, and payment records.

React Blog

React Blog App

Tech Stack: HTML | CSS | JavaScript | React

- Designed and implemented an intuitive and engaging user interface focused on optimal reading experience, utilizing React.js and Context API.
- Utilized the Context API to manage global state, ensuring efficient sharing of blog content across components.
- Applied responsive design principles, enabling a consistent experience across various devices and screen sizes.

Live Weather

Live Weather App

Tech Stack: HTML | CSS | JavaScript | React

- Created a modern and user-friendly interface using React.js, ensuring intuitive interaction and easy access to weather data.
- This summary effectively communicates my experience and contributions in developing a live weather application, showcasing my skills in React.js, Axios, state management, and delivering a user-friendly and informative application.

Todo List Website

Todo App

Tech Stack: HTML | CSS | JavaScript

- Successfully integrated JavaScript (JS) code into HTML pages, showcasing its versatility and enhancing interactivity.
- Utilized DOM functions to transform static applications into dynamic ones, implementing features like real-time form validation and interactive image galleries.
- Developed innovative solutions by organizing JS code for maintainability, leveraging libraries, and exploring frameworks to streamline development.

Sentiment analysis

- Built Sentiment analysis, project using Machine learning using python.
- I was assigned to work on a machine learning project, which detects the sentimental behavior of any kind of tweets ,post or comments.

Skills

Languages & Web: Kotlin, JavaScript, C, HTML, CSS
Frameworks & UI: Jetpack Compose, React, DOM
Database & Cloud: Firebase Realtime Database
Technologies: Android Development, Machine Learning, Responsive Web Development
Tools: Git, GitHub, Netlify

Education

Prepbytes **2023/03 – 2023/09**

Full-Stack Development *Bangalore, India*

Don Bosco Institute of Technology, Bengaluru **2017/08 – 2021/08**

B.E (Computer Science and Engineering) *Bangalore, India*

Interests

• Cooking • Cricket • Listening Music
